

We believe in a better life for the children of Africa. They are perfectly created in the image of the Infinite. We identify the children of Africa with health and vitality of mind, body and spirit.

We deny any thought of limitation, known or unknown, which may obstruct their good. Together we erase all false opinions that there are not enough resources. Right here, right now, we discontinue fueling thoughts of sadness, lack and limitation.

We affirm the children of Africa are a radiating magnet, mighty to attract their good. There is more than enough passion, policy and prosperity to demonstrate this vision. We see the living Spirit of Wisdom manifesting in their lives now.
